

THREE AFTER NOMINATION FOR MAYOR

BOHNERT IRED OVER PASSAGE OF STATE TAX

Representative Charges
Home Owners, Farmers,
Real Owners, Beaten

STATEMENT STRONG

Explains Method of Class-
ification Tax

Nathan C. Bohnert of Monroe-
town, Pickaway-co's representative
in the Ohio general assembly,
laments the fact that the classifi-
cation tax amendment was passed
at the 1929 election and states
his side of the case in so many
words, in a letter to the Editor
received here Thursday. Mr.
Bohnert voted against the adoption
of the amendment in the house
of representatives Tuesday evening.

The letter entitled 'Barnumized
and Banderized' follows:

"The home owners, farmers and
real estate owners were Barnum-
ized at the November election in
1929 by the passage of the classifi-
cation tax amendment as put in-
to effect by this 89th Assembly.

"Much of the Barnumizing can
be credited to some of the state
farm bureau leaders and some of
the state grange leaders. I have
a well-founded suspicion that these
leaders are drawing double salary;
one from the farmers that they
are fooling, and one from the in-
terests they represent.

"The new law provides that
farms, homes and improvements
thereon are not only subject to the
15-mill levy, but must bear all
bonded indebtedness present and
future, so will tangible personal
property. Intangibles will not.
Household furnishings, musical in-
struments and paintings are free
from taxation. Farm machinery,
tools, stock used in agriculture
and manufacturing equipment are
taxed 50 per cent of their true
value in money, all other tangible
personal property at 70 per cent
of their true value in money. Both
are also subject to the 15-mill
limitation and bonded indebted-
ness.

"Intangibles, such as deposits
in banks, etc., are subject to two
mills on the dollar; such as invest-
ments; five per cent of the gross
income. It is said the banks and
building and loan companies will
absorb the two mill levy. Some
will and some will not. A large
majority will either take it off the
depositor or pass it on to the bor-
rower.

"How the new law will work, I
will explain.

"The owner of a \$3,000 home or
farm will be subject to a \$45 tax.
The owner of \$3,000 worth of
farm equipment and farm stock,
or the owner of \$3,000 worth of
manufacturing equipment, will
be subject to \$22.50 tax. The owner
of \$3,000 worth of all other tan-
gible personal property will be
subject to \$31.50, and all must
bear all bonded indebtedness,
present and future.

"The owner of \$3,000 worth of
household goods, musical instru-
ments or paintings pays no tax.
"The owner of \$3,000 worth of
deposits (if not absorbed by the
bank or building and loan com-
pany) must pay 2 mills or 56 cts.
in taxes. The owner of \$3,000 in in-
vestments earning 7 per cent,
which amounts to \$210, must pay
5 per cent on the \$210, which is
\$10.50 tax, and neither of the
above three properties is subject
to the bonded indebtedness, present
or future.

"The new tax law partially
takes care of the schools of the
state, but makes no provision for
taking care of the county's and
township's administrative ma-
chinery. This is the Banderized
part of the law. Its purport is to
do away with our township form
of government and break up our
county unit. Its purport is to for-
ever put an end to home rule.

"This new tax law is favorable
with the wealthy class. This class
is offering no supplemental law to
help out the county and township
units which reeks of more of
their ideas, such as abolishing the
property tax on automobiles and
trucks, and raising the tag license
on the same.

"A tax on earned incomes
"A tax on soft drinks, amuse-
ments, tobacco and tobacco prod-
ucts
"The politicians and intangible
tax dodgers had their way."
N. C. Bohnert.

Alabama Belle

Presenting no one less than the Belle
of Alabama, Mary Hall Van Pelt,
of Montgomery, Ala., who has been
chosen to represent her State as
official sponsor at the fourth an-
nual rhododendron festival, which
begins in Asheville, N. C., June 24.
Mary won the honor by being
named prettiest girl at the Univer-
sity of Alabama.

SHOP-LIFTING NOW CHARGED

Two Local Girls Being Que-
stioned by Authorities;
Names Withheld

Two girls whose ages are 12 and
15, are scheduled for a hearing in
juvenile court before Judge E. A.
Brown, next Tuesday, at 9 a. m.,
on a charge of "shop-lifting."

The girls are alleged to have
taken clothing, including dresses,
underwear, tams, a pocketbook
and other items from the J. C.
Penny Co., and Murphy's 5 & 10
cent store sometime ago.

Probation Officer L. M. Brown
and Officer William McCrady dis-
covered the alleged "shop-lifters"
while investigating another juve-
nile case Wednesday. In one in-
stance a blue dress had been dyed
black to hide its identity, they claim.

According to the officers, J. C.
Penny store did not report the
theft of the goods, and did not
know it had been stolen until
Wednesday, when Officers Brown
and McCrady conducted the inves-
tigation.

FENDERS BENT

Two left fenders on the Chevrol-
et sedan driven by Tom Drum, W.
Mound-st., were damaged when
Drum was crowded off the Colum-
bus-pk. by a truck Wednesday eve-
ning. The driver of the truck was
unknown.

The car was taken to the Cir-
cleville Motors garage for repairs.

10,000 PEASANTS THOT MASSACRED

SHANGHAI, June 11.—Heavy
gains by communist forces in
Kiangsi province were reported in
dispatches received here from
Nanchang today. The reds were
reported to be meeting with little
resistance from federal troops, and
fears were felt Nanchang itself
might fall into the hands of the
invaders.

Reports received here stating
the communists were using in-
nocent non-combatants as shields
in their onslaught against the fed-
eral force could not be confirmed.
Thousands of non-combatants were
reported killed when they were
pushed in front of the attacking
forces and received the full force
of federal machine-gun fire.

Efforts were being made by the
government to confirm the num-
ber that 10,000 Chinese peasants
lost their lives in the massacre.

MARINE IS SHOT
MANAGUA, Nicaragua, June
11.—Hopes were held out today for
the recovery of Lieut. Everett
Ross of the United States marine
corps who was seriously wounded
six miles from Jicaral yesterday.
The bandits killed three Nicaraguan
national guardsmen and wounded
two others.

Extent of the bandit casualties
was unknown.

WAYNE BOARD OF EDUCATION GOES TO WORK

Advertise for Bids on \$40,-
000 Building After
Court Fight

TO LET ON JULY 9

Fireproof School Building
to Be Erected

That Wayne-twp's centralized
school will be a real one was ex-
pressed Wednesday when the
board of education, after winning
a legal fight which would have
nulled the bond issue voted by res-
idents of the township, began ad-
vertising for bids for the con-
struction of the building. The
sum of \$40,000 will be spent on the
new school, according to plans of
the board of which John Peters is
president, and P. W. May, clerk.

Bids will be received until Mon-
day, July 9 for all material and labor
necessary for the erection of a
fire-proof school building, accord-
ing to plans and specifications pre-
pared by F. F. Glass, architects,
of Columbus.

Bids for the building will not in-
clude heating, ventilating, plumb-
ing, sewers, and electrical work.

CASE FOUGHT

The proposed school in Wayne-
town has been fought pro and con
for at least the last two years
with a number of large property
owners on one side and some
property owners with more farm
tenants on the other. The former
fought the school claiming that it
is unnecessary, and would be a
great burden on tax-payers. They
charged that Wayne-twp's high
school pupils are being handled
at the high school here, at
Jackson-twp., at Williamsport, or
even at Pickaway-twp's centraliz-
ed schools.

On the other side, a number
backed the proposal charging that
they could not afford to send their
children to other townships to at-
tend school.

After the election in which the
bond issue carried suit was
brought in common pleas court
here by a number of property own-
ers in the township claiming the
high school unnecessary. The case
was placed before Judge Harry S.
Core, of Ottawa, who ruled that
the court had no jurisdiction in the
matter. The case was then taken
to the court of appeals by the
plaintiffs but was withdrawn be-
fore coming to a hearing.

30 ARE DROWNED

ANGORA, Turkey, June 11.—
Thirty persons were drowned and
thousands of head of cattle de-
stroyed today by floods which
swept a large area of the Turkish
countryside near here. The floods
followed torrential rains.

BURNS AWARDED PAVING CONTRACT

The A. W. Burns Construction
Co., Columbus, was awarded the
contract to pave and furnish the
brick for State Route 159, known
as the Chillicothe-Lancaster road,
at its bid of \$74,140.13 by the de-
partment of highways, Wednesday.

This construction company is
well known in this vicinity, having
paved S. Court-st last summer and
at the present completing a pav-
ing job west of New Holland.

Rev. F. L. Olenach, noted as-
tronomer of John Carroll Univer-
sity in Cleveland, expressed the
opinion that it would have been
entirely possible for a meteor to
have caused a shock similar to
that which rocked this section of
the state yesterday.

Rev. Olenach pointed out that
the ground and buried itself sever-
al feet away from the hole.

Harry W. Moore to Op- pose Fitzpatrick and Cady at Dem. Primaries

FILE PAPERS TODAY

Helwage Comes Into
Race for Council

A three-cornered fight for the
Democratic nomination for mayor,
to oppose Mayor Benton T. Hedges
was announced Thursday when it
was learned Harry W. Moore, local
shoe merchant, plans to file his pe-
tition late this afternoon.

Moore's candidacy for the nom-
ination, subject to the August pri-
maries, will be contested by
George M. Fitzpatrick and Wil-
liam Cady, both of whom have al-
ready filed their candidacies with
the clerk of the board of elections,
Harry E. Weill.

No opposition has been named
against Mayor Hedges for the Re-
publican nomination, and it is ex-
pected there will be none.

HELWAGEN FILES

Julius Helwage, councilman
from the second ward, filed his pe-
tition of candidacy for second
term with the clerk Wednesday
afternoon. Mr. Helwage will be
opposed for the nomination by W.
Ward Robinson. So far, Mr. Hel-
wage is the only member of coun-
cil with opposition. Friday, at 6-
30 p. m., is the deadline for filing
petitions.

SUCCESSOR TO H. WELDON DIES

Joe Nolan, 58, Sports Editor
at Enquirer Since 1900,
Passes Away Today.

CINCINNATI, O., June 11.—
Joe Nolan, 58, sports editor of the
Cincinnati Enquirer for the last
thirty years, died here today of
diabetes, following a long illness.

Nolan was one of the most pic-
turesque sports writers in the pro-
fession beginning his career as a
copy boy. Nolan won recognition
as an authority on sports. He suc-
ceeded Harry Weldon as sports
editor of the Enquirer when the
latter died in 1900.

Harry Weldon, whom Joe Nolan
succeeded at the Enquirer, was a
native of the city, and was the fa-
ther of Mrs. Charles T. Gilmore.
He was reputed to be one of the
best sports-writers in the United
States when he was sports editor
at the Enquirer.

HILL TRIAL SET

Trial of Burt Hill, Maplewood-
ave, who was arrested by members
of the sheriff's office on three
charges, illegal possession of in-
toxicating liquor, transportation of
intoxicating liquor and displaying
fictitious license tags will be
heard before Judge E. A. Brown,
Friday at 9 a. m.

Hill pleaded not guilty in a pre-
vious arraignment.

The case of Stanley Jackson,
who was arrested by members of
the sheriff's office on a non-sup-
port charge has been continued.

GOVERNOR MAY OFFER HIS AID TO ASSEMBLY

Tax Problems More Com-
plicated Than Ever,
Belief; White to Act

MAY GIVE MESSAGE

Revenue Must Come, But
From Where?

COLUMBUS, June 11.—Possibil-
ity that Governor George White
may attempt to guide the state
legislature out of its slough of
budget difficulties loomed here to-
day when it was understood that
the chief executive is planning an-
other message to the legislature.

Reports here indicated that the
governor will deliver the message
which will be his fourth, before
adjournment of the legislature the
latter part of this week or early
next week.

"DEEPER AND DEEPER"

Deeper and deeper the legisla-
ture has been wriggling itself in-
to budget difficulties, it was gen-
erally agreed among political ob-
servers here.

The task of making budget re-
quirements meet revenue has been
admittedly unpleasant and the le-
gislatures have drawn upon them-
selves from all sides.

Totally "up against it" the le-
gislature is confronted with the
problem of balancing budget and
revenue by slashing maintenance
cost and parting salaries and
wages of state employees from ten
to twenty percent or with finding
a revenue producing method to
make ends meet.

Governor White realizing the dif-
ficult task with which the legisla-
ture is faced will take the helm
of the budget ship and try to
guide the legislators to a safe port.

Information obtained from re-
liable sources close to the govern-
or indicate that he will suggest it
is the duty of the legislature to
raise needed revenues by taxation
efficiency and function are endan-
gered by lack of the proper amount
of funds.

However it could well be predict-
ed to governor he intends to de-
liver with a reminder that strict-
est economy is to be maintained.

CROWD AT S. S. CONVENTION

A large attendance was on hand
at the annual, Pickaway-co Sun-
day School Convention being held
at the Presbyterian church, E.
Mound-st, Thursday.

A fine program had been ar-
ranged for the day.

Election of officers and ap-
pointment of committees will cli-
max the day's session.

Lunch was served at noon by
the ladies of the Presbyterian
church.

MRS. GRAY DIES

Funeral services will be Friday
at 2:30 p. m. at Mt. Carmel
church, Ross-co, for Mrs. Lizzie
Gray, 59, of Ross-co, half-sister
of Mrs. Anna Barkley and Frank
Barnhart of this city, who died
Tuesday of complications. Burial
will be in the adjoining cemetery.

sired.

ONE IS KILLED 100 IMPERILED

CALDWELL, O., June 11.

—One miner was instantly
killed, another was seriously
injured and the lives of nearly
100 men were imperiled today
when dynamite prematurely
exploded in the workings of a
mine operated by the Belle
Valley Mining Company at
Belle Valley, near here.

Andy Meschrich, 52, who was
believed to have been handling
the explosive, was killed almost
instantly. Mike Egnit, 48, of
Macksburg, was badly injured. He
was rushed to a hospital at
Marietta.

The blast occurred this morn-
ing as the day shift of miners
was replacing the night workmen.
Nearly 100 men were in the work-
ings. That the loss of life was no
greater was described by mine
officials as a miracle.

Considerable damage was wrought
by the explosion, it was
said. Officials declared, however,
that the nature of the damages
was not such as to force the mine
to close down.

The blast happened suddenly
and without warning. When it let
loose, miners fled pell mell for
exits through a veritable down-
pour of bits of rock, earth and
coal.

HAWKS SPEEDS TO ITALY FOR HAIRCUT

ROME, June 11.—Captain
Frank Hawks, famous Ameri-
can flying ace, treated him-
self to an artistic Italian
haircut today. Objecting to
German methods of cutting
hair because a Berlin barber
cut too much off the top of
his head, Hawks hopped into
his plane yesterday and sped
across the Alps to Rome in the
time of 3 hours 31 minutes.

Captain of Illinois Guards
Dies; Two Others Thought
Near To Death.

TOLEDO, June 11.—Captain M.
M. Rubner of the Illinois national
guards, was killed and two other
men critically injured today in an
airplane crash at Walbridge, O.

A Captain Kuhsus, also of the
national guards, is believed dying
while Thomas S. White, a Chicago
contractor, suffered serious in-
juries.

According to White Rubner
operated a private flying service
and was piloting the plane when it
crashed. White chartered the
plane to make a business trip to
Toledo, he said.

As the plane was over Walbridge
it suddenly wobbled and a wing
buckled. It crashed in a field a
mile south of Walbridge.

NEW FEDERAL ROUTE TO THROUGH CITY

No. 22 Extended From
Cambridge, to Go to Cin-
cinnati Through Here

AID TOURIST TRADE

Many Changes Made on
Ohio's Highways

Circleville is now on the direct
federal route from Pittsburgh to
Cincinnati by virtue of changes
approved by the American As-
sociation of State Highway officials,
meeting in Chicago this week. The
new route extends from Cam-
bridge by way of Zanesville, Lan-
caster, this city, Washington, C. O.,
and Wilmington and is known as
federal route No. 22.

Nine hundred and seventy-five
miles of national motor route
will be acquired by Ohio as a re-
sult of these changes. The com-
mittee failed to accept all of Ohio's
recommendations but Ohio never-
theless gained a number of impor-
tant routes for tourist travel.

ROUTES EXPLAINED

One of the new U. S. routes to
be established in Ohio will be
known as U. S. 6, with a western
terminus at Denver and an eastern
terminus at Erie, Pa. This
route will substitute for the pres-
ent U. S. 322 from its eastern
entrance in Ohio to Cleveland.

Westward across the state, it
leads through Cleveland, Lorain,
Sandusky, Bowling Green and
Toledo, Ind.

A second new national
route, extending east from
Pittsburgh to its junction with
U. S. 6 at Cambridge, Ohio, will
be known as U. S. 22. This
route will substitute for the pres-
ent U. S. 322 from its eastern
entrance in Ohio to Cleveland.

The Mayville, Ky., terminus of
U. S. 62 will be extended west-
ward to Niagara Falls, N. Y.,
through Akron, Dayton, Cin-
cinnati, Washington, C. O., Col-
umbus, Canton, Alliance, Salem,
Troy, and Sharon, Pa.

An important change
which there has been considerable
discussion involves the estab-
lishment of optional routes for U. S.
20 and 30, giving the traveling
the choice of either. Instead of
leading through Mansfield and
Delphos, the regular U. S. 20 will
touch Crestline, Bucyrus, Upper
Sandusky and Beaver Dam, where
the Mansfield-Delphos portion
will be known as U. S. 30-S.

SHORTEST ROUTE

Route 22 represents the shortest
route between Pittsburgh and Cin-
cinnati. It will be known as the
Florida route as much of the Pen-
sylvania traffic will travel here
to go to Mayville, Ky., and
southward.

At the present time three por-
tions of major importance for
the improvement of the route between
this city and Stauntonville are un-
derway, covering a total of 20
miles. The new Mayville, Ky.,
bridge is to be opened in Septem-
ber or October and this will add
much to the importance of the
route. New markers will probably
be placed on the route in the next
few weeks.

The federal route through the
city has been pointed out as aid-
ing much in directing traffic
through Circleville and Pickaway-
co, as such routes, on the larger
maps, are usually marked in red
ink and being federal routes, are
selected by tourists before state
routes.

As ranking Democrat on the merchant marine committee, Davis has exercised wide influence in shaping radio legislation. He is author of the "Davis amendment" under which the sweeping 1928 readjustment of radio stations was made.

The bill which he will present to Congress, Davis emphasized, is designed to place radio advertising on the same plane as that of newspapers and to avoid censorship by any commission.

He also is considering legislation to prohibit firms from soliciting business by radios in states where it is unlawful for them to solicit.

Davis said: "Under present federal law, newspapers or other publications containing lottery advertising are unmarketable. There is no law applying to radios, and the federal radio commission has declined to interfere with this class of advertising."

"It has been the consistent policy of the federal government to prohibit lotteries and kindred schemes to the extent of its power. There are plenty of precedents for exercise of congressional action in the case of radio advertising."

The recent action of the supreme court in refusing to review the case of a man convicted of using profane language on the radio in violation of the federal radio act, strengthens the power of Congress in this field, he said.

Davis declared he had received some complaints that insurance companies are using the radio to solicit business in states where they are not licensed to operate. If they advertised in newspapers in these states they would be subject to indictment, he said. He may include a federal prohibition in such cases in his bill.

"This presents a serious question, because of the possibilities of the radio being used in 'blue sky' advertising," he observed.

Davis also declared his opposition to the time taken up by advertising announcements on the radio. Whether he will introduce any legislation on this subject is yet to be determined.

TICKET PRICES

C. W. Clark, manager the Western Union, announced today the company has made arrangements whereby Circlevillians who are anticipating attending the Schmelzing-Stribling fight at Cleveland July 3, can secure tickets through their telegraph money order service.

The Madison Square Garden company of Cleveland has furnished the Western Union with prices for tickets which are as follows: Ringside first 40 rows, \$25.00; ringside next 22 rows \$12.50; general admission reserved seats \$5.49. All tickets will be mailed by the Madison Square Garden company direct to those making reservation.

Although the wheat situation is not likely to improve, it may result in farmers having more home-grown feed which will permit them to produce more livestock and thus profit through a larger volume of business.

The fact is that all the pitchers in the league, except the Philadelphia and Washington staffs, have been in-an-out performers. I have a hunch the Yanks are due to get a lot of good pitching."

WAGNER PLEADS RESTORATION OF TEMPERANCE, PROSPERITY

WASHINGTON, June 11.—Pleading for a restoration of temperance and prosperity, Senator Robert F. Wagner (D) of New York, today suggested the new congress investigate the economic effects of permitting the manufacture and sale of four per cent beer.

Wagner joined in the growing demand that the Wickersham commission make public all the information it gathered last spring investigating this subject. In event the commission declines to make its date public, Wagner said either the senate or house should conduct a like inquiry.

Dry leaders meanwhile sided with Senator Thomas J. Walsh (D) of Montana, who suggested the commission might not have any authority to investigate economic questions. He pointed out the commission's inquiry was limited by congress to the subject of law enforcement.

Wagner declared the legalization of four per cent beer would tend to restore temperance and prosperity. He said it would also aid agriculture in its recovery from over-production and would tend to stamp out racketeering and bootlegging, while increasing governmental revenues.

"The primary reason for bringing about a modification is because prohibition has failed as a temperance measure," said Wagner. "This is generally conceded even by the remaining advocates of prohibition. Hence those of us who are firm believers in temperance."

"LAZZERI WILL STAY IN GAME"

"Poosh-em-up" To Comeback Says Yankee Boss, Who Still Has Hopes.

NEW YORK, June 11.—Far from trading Tony Lazzeri to Washington or any other club, Manager Joe McCarthy of the New York Yankees is going to give the San Francisco Italian another chance to make good at second base, his old position.

The wallowing wop from Telegraph Hill, who has been the victim of the most mystifying batting slump of the 1931 campaign, may return to the midway post during the current series with the Chicago White Sox here. He has been working out at second in morning practice recently. Used at third base most of the season, Tony has batted only .234 to date.

"Lazzeri will be back in the game soon," said McCarthy this morning in denying a report that the one-time premier second sacker of the league would be traded to Washington for a pitcher bump Hadley and Jack Hayes, utility infielder. "His leg went bad some time ago and I had to take him out a couple of times. His leg is all right now and his arm is as strong as it was three years ago."

McCarthy, unlike Roger Pennington of Cleveland, has not given up hope of catching the league-leading Athletics.

"Mack's ten-game lead could be wiped out in ten days," says Joe optimistically. "Remember the year when the Yanks blew a thirteen game lead? And look at Cleveland's twelve-game losing 'a' while back. The same thing might happen to the A's."

"I believe our pitching will improve shortly. The hurlers were thrown out of their stride by the long string of postponements on our western trip. Gomez and Ruffing are pitching fine ball. Pipgras will be all right as soon as he gets one good game under his belt. There is no reason why Sherid shouldn't be a winner."

The fact is that all the pitchers in the league, except the Philadelphia and Washington staffs, have been in-an-out performers. I have a hunch the Yanks are due to get a lot of good pitching."

are looking for a way to restore it.

"Secondly, the legal sale of beer would help very much in alleviating the current depression. Men would at once be employed in brewing and that employment would have its beneficial effect on every other industry. With unemployment reduced and the purchasing power of thousands of men increased, all industries would benefit."

"Agriculture would be aided too, since the farmer would find a new market for his grains. At the same time, there would be new city markets for the farmer with so many men given employment."

"So far as the government is concerned, its revenues from sale of legalized beer would be materially increased. For one thing, it would end this talk of increased taxes, deficits and bond issues to cover the deficits. The revenue very likely would reach a billion dollars a year—much of which is now going into the pockets of the criminal element."

"There is one other important effect in permitting the sale of beer. It would destroy to a large extent the business of the racketeer and bootlegger, who today are competing with organized society and organized government for control of our nation."

Meanwhile, these "wet" claims were characterized as absurd by the National Women's Christian Temperance Union.

This prediction would require every American to drink two and a half gallons of beer a day, the Union's statements said.

The largest beer tax ever paid was \$87,875,672, in 1916, it was asserted.

Since 36 states have prohibited legislation which would make sale of beer possible, modification of the volstead act by congress could affect but 12 states, it was declared. These are California, Connecticut, Massachusetts, Montana, Missouri, Nevada, New Mexico, New York, Pennsylvania, Wisconsin, part of Maryland and possibly Tennessee.

EIGHT PROMOTED

ROANOKE, Va.—The promotion of eight members of the freight traffic department of the Norfolk & Western Railway, and the creation of an additional post of assistant general freight agent, have been announced at the general office of the company here. The promotions were brought about by changes in that department on June 1, when a number of officials were elevated to new positions.

F. S. Baird, assistant general freight agent, has been elevated to the assistant general freight agency, formerly held by F. H. Pitman, recently appointed general freight agent. C. F. Keeley, commerce agent, has been promoted to assistant general freight agent, succeeding Mr. Dunlap, and A. C. Dunlap, division freight agent, has been appointed to the new assistant general freight agency. All have headquarters in Roanoke.

H. G. Rardin, chief clerk to the assistant general freight agent, Columbus, Ohio, will come to Roanoke as commerce agent. H. N. Huse, chief rate clerk in the office of the general freight agent, has been named as division freight agent, succeeding Mr. Dunlap, and N. R. Lehman, assistant chief rate clerk, has been advanced to the position of chief rate clerk.

R. C. Bell, executive clerk in the general freight agent's office has been elevated to the position of assistant chief rate clerk, succeeding Mr. Lehman. W. D. Gillespie has been promoted to the dual post of chief clerk to the general traffic manager and the freight traffic manager.

Answering the Call to Service

Twenty-four hours a day, 365 days a year, Your Gas Company is called upon to furnish continuous service.

There are ever-changing weather conditions to consider. Pressure must be maintained regardless of conditions. A supply of gas must be available to meet a fluctuating demand.

To furnish adequate and satisfactory service at all times, Your Gas Company must be constantly alert to changing situations. It must develop new sources of supply. It must maintain a gigantic network of lines, with compressors, regulators and other equipment, operated and guarded by an army of workmen—to insure an adequate supply of gas the instant you turn a valve in your home.

Answering faithfully this call to service has been the most important factor in making gas your most dependable, domestic servant.

LIGHTER BALL WORRIES BRITS

'Balloon' Golf Ball May Have Big Part in Ryder Cup Matches Here.

COLUMBUS, O.—The British golfers trying out for the Ryder Cup Team which will oppose the eight leading pros of the United States on June 26th and 27th at Scioto Country Club, here, found difficulty with the American standard ball under heavy weather conditions.

The Britains playing with the larger and lighter ball at the trials held at the Royal Lytham and St. Ann's golf course recently were unable to produce their best golf, according to a story carried by the London Morning Post.

Regarding the ball and the weather the Post said: "Twelve games, each over 36 holes—the Cup match distance—were decided, but the play was more of a test for the ball than for the men."

"A gale of wind tore across the course throughout the day, and the players, handicapped as they were by the larger and lighter ball (now standard in America) were unable to produce the best of their golf. It would have been a difficult matter to control the smaller and heavier British ball, and the blustering wind now played all kinds of pranks with the American model. Players who endeavored to get a slight cut on to their long shots found themselves developing a bad slice; approach shots were uncertain, and putting was extremely difficult."

Against the wind the best of good drives were reduced to a moderate length. For example, at the long seventh—542 yards—players were not up with three full wooden club shot. Yet at the longer eleventh, only a yard short of 600, the big hitters were almost home with two."

HOOVER CERTAIN FESS DECLARES

WASHINGTON, June 11.—President Hoover will not only be unanimously renominated by the Republicans but he will be overwhelmingly re-elected by the people in 1932, Senator Simeon D. Fess, Republican of Ohio chairman of the Republican national committee, predicted today.

The declaration was made to a conference of young Republicans embracing delegates from all parts of the country and called to launch a Republican drive among first voters.

Maryland Woman Happy Now—LOSES 55 LBS.

Edith J. Marriott of Baltimore, Md., writes: "Last winter I weighed 200 lbs. and was very much ashamed I bought a bottle of Kruschen Salts which gave such wonderful results I bought more. After 4 bottles I weigh 145 lbs. and all my friends say, 'How slender you've gotten—how did you do it?' I say only 4 words—thanks to Kruschen Salts."

A generous bottle of Kruschen Salts that lasts 4 weeks costs but 85 cents at Hamilton & Ryan's, or any drugstore in America—take one half teaspoon in a glass of hot water every morning before breakfast—cut out pastry and fatty meals—go light on potatoes, butter, cream and sugar—that will help Kruschen take off your fat.

Take Kruschen every morning—it's the little daily dose that does it—if not joyfully satisfied after the first bottle—money back—Adv.

The JUST KIDS SAFETY CLUB is off to a flying start on its 1931 campaign for members. Announcement of the opening of the drive has brought a flood of membership applications into the office of The Herald.

Interest in the campaign is being shown all over the city. Every child under 14 years of age and every motorist is invited to join in this campaign to make the streets of Circleville safer in which to walk and to drive.

All the members spread the safety lesson: OBEY ALL TRAFFIC RULES and REMEMBER TO LOOK UP AND DOWN BEFORE YOU CROSS THE STREET. These lessons are carried on throughout the year in the JUST

KIDS comic strip. It was Ad Carter, who draws the strip, who founded the club, you know. Mush Stebbins, Peanuts, Pat Finnegan, Fats and Marjorie are all members of the club—and friends of all members of the club. They are trying to prevent a repetition of the accident in which Little Johnny Jones was hurt when he dashed across the street without looking to see where he was going.

All the members of the club are asked to do is to try to prevent accidents. All you have to do to join is to fill out the application blank, get your parents' signature, and mail or bring it to The Herald and receive your Button and new style Membership Card.

SCIENTIFIC ENFORCEMENT OF LIQUOR LAWS NOW PLANNED

WASHINGTON, June 10.—Based on nearly a year's experience of the justice department in administration of the prohibition law, 24 special instructors today were launching into a course on the finer points of scientific enforcement.

Two experts from each of the districts, who have been instructing old and new agents for about a year, were called to the capital by Prohibition Administrator Amos W. W. Woodcock for a round-up course. About July 1 they will return to their districts and lead 350 new agents to attack the big violators of the prohibition laws.

Woodcock expressed the opinion that the government was "on the right track" in its method of enforcement—that is, the specialized training of an efficient personnel which will enforce the law through lawful methods, avoid hardboiled tactics which engenders public sentiment against the law, and seek to make only the important cases which may be successfully prosecuted in the courts.

While the number of arrests which will be made up to June 30, according to present indications somewhat more than 60,000, is no more than in the year or two prior to assumption of the duty of enforcement by the justice department, it was felt by officials that more important cases have been presented to the courts this year than at any time since prohibition was written upon statutes.

So far as possible the federal government is dodging the trivial cases. Padlock procedure is being used to close premises quartering large violators, but as a rule the speakeasies and other establishments which do not involve major production, transportation or sale are left to the local authorities.

Expenditures for the next fiscal year will be several million dollars more in view of the new agents authorized by congress. Woodcock will study the results obtained by his expanded force before reaching a decision whether still more men are needed in the government's program of wrecking the rum trust.

STRAWBERRY SEASON NEAR PEAK

With the strawberry season almost at its peak, local truck farmers and grocers advise that this week is a good time for the housewives to can them for winter use.

A survey of representative groceries this morning showed the strawberries being sold at prices ranging from two quarts for 25c to 20c a quart.

Local raisers estimate that the peak of the season will be reached this week. This year's crop has been unusually large and the berries have been of high quality.

Rev. S. C. Elsea, of the Columbus-pk, is thought to be the largest strawberry raiser in the county, as he has several acres of the berries producing fruit.

WHEAT TO GIVE FARMERS WHEAT

COLUMBUS, O.—Although the wheat situation is not likely to improve, it may result in farmers having more home-grown feed which will permit them to produce more livestock and thus profit through a larger volume of business, according to J. C. Neff, rural economist at Ohio State university.

A general crop failure might raise prices, but other factors helping to keep the price of wheat at a low level may balance such gains. The present lower costs of production due to increased use of machinery for wheat seeding and harvesting, and the low prices of all other commodities, may tend to check any increase in wheat prices resulting from a crop failure, Neff explains.

The United States farmer, he says, exported 25 million bushels less wheat than he did last year. This is in sharp contrast with the amount of wheat exported from other countries. Canada exported 78 million bushels more wheat, Australia exported 67 million bushels more than the year before,

and Russia has increased her exports from 4½ million bushels to 80 million bushels.

Retaliation

In the last 12 months exports from the United States to Canada dropped from \$847,000,000 to \$584,000,000. Since last September 75 American industries have opened factories in Canada to produce for Canadian consumption goods formerly shipped from the United States. The reasons are four successive Canadian tariffs virtually barring many imports from the United States. Nor can the United States and its unemployed condemn the dominion government for depriving them of this business and work. Canada has done unto us only what we have done unto her. The Hawley-Smoot tariff law, which deprived Canada of much business, preceded the dominion tariff by several months. The good neighbors to the north merely acted in self-defense, using Uncle Sam's weapon to do it.

Since there are good reasons to suppose that Canada would enact no anti-American tariffs, except in retaliation for the Hawley-Smoot law, the tariff policy of the Hoover administration has seriously impaired the country's richest market and permanently deprived it of a tremendous volume of dominion business. It was a terrible mistake that is being compounded every day the administration maintains rates at a higher level than is required to protect domestic industry and assure employment at home. When they rise above that level they only injure those with whom the country trades and provoke them to retaliation.

Disarmament

SEVERAL governments are said to be secretly engineering a move to postpone the general disarmament conference called to meet next February. The state department at Washington is not included in the number reported to be actively working for postponement, but it is doing nothing to prevent delay and has unofficially indicated to France that a postponement would not arouse the displeasure of the United States government.

The reason advanced for a postponement are not convincing. It is not contended that further delay would promote the cause of world peace, but that it would benefit certain political parties in a number of countries where the political situation might be disturbed if a disarmament pact became an issue. In other words, the politicians prefer to run the risk of armament competition and another disastrous war than face a political battle.

Washington's attitude is difficult to understand. Within the month President Hoover devoted an entire address before the International Chamber of Commerce to the present danger of war and costly competitive armament; and held up the February conference as the hope of a world trying to heal the wound of war and business depression. Can it be that the Republican administration at the national capital is afraid to face such a humane issue at a time when the whole world cries out for permanent peace and a world brotherhood? What special interest would be prejudiced by a disarmament conference?

WEALTHY AMERICAN FAMILIES COMBINED
LONDON, June 11.—Climaxing a friendship of many years' standing, notice of intended marriage was filed at a registry office here today by Anthony Drexel Biddle, Jr., member of the wealthy and prominent Philadelphia family, and Mrs. Margaret Schulze, daughter of the late William Boyce Thompson of Yorkers, N. Y.

Both gave their ages as 34. Biddle was divorced from his first wife, the former Mary L. Duke, in Paris last March. At that time it was reported he would be married to Mrs. Schulze as soon as her divorce from Theodore Schulze became final.

The forthcoming marriage will link two of America's wealthiest and most socially prominent families. Mrs. Schulze inherited a large fortune upon the death of William Boyce Thompson recently.

At that we cannot see now how Biddle could have done worse than the American magnates who did go to France.

Following the crash of his plane in Joan Marbury's Florida orange grove, young and wealthy Dave Ordway is content with the peaceful life on the plantation that is a contrast to his former pleasure-seeking existence. Adventure awaits him here, however. Mueller, brutal owner of the adjoining grove, is trying to force his attentions upon Joan. He robs Dave and burns his plane because Dave refuses his demands for damage to Mueller's property in landing. Joan's cousin, Sally, who lives on the plantation, is in love with Dave, but he is more attracted by the reserved Joan. When Dave's erstwhile fiancée, Barbara Holworthy, and his friends, Gerry Flemming and Talbot Henderson, visit him, he is aware of the antagonism among the girls. Gerry recognizes Mueller as "Snatch" Cazzoni, a boot-legger. The boys leave to steal Mueller's plane to replace Dave's.

CHAPTER XIX
UTTERLY incongruous amid that wild tangle of vegetation, an ornamental light standard thrust its twin frosted-glass shades above the fast-climbing creepers. Directly beneath it was a sign post which had once indicated the intersection of pleasant streets, gay with shining motor cars and laughing people. Now it pointed blindly at a jungle which was slowly, relentlessly obliterating everything that ambitious men had accomplished.

"That must be part of the development, Cathay," said Dave, thoughtfully. "The girls said it was over in this direction. Some on this place gives me the willies. Let's go," shivered Talbot. "I don't like it. I have the feeling that one of those vines is going to reach out and drag me into the scrub."

Out of Place

They walked on and presently came to a sharp turn in the rutted road. Another street lamp and faded signpost stood like a spectral sentry over the corner. A dozen yards beyond stood what had once been a pretentious Spanish house, now lonely and forlorn, waiting for the rising tide of vegetation to sweep over it. Its roof, under the steady moonlight, showed scrofulous patches of bare timbers where the tiles had slipped off to the river ground below. Its broken, uncurtained windows stared vacantly at nothing. The road swept around the abandoned dwelling in a complete loop. The boys followed it, puzzled.

"Here's something ripe and luscious," called Talbot, who had climbed to the top of a wall. "I'm going to get some juice for the rising tide of vegetation to sweep over it. Its roof, under the steady moonlight, showed scrofulous patches of bare timbers where the tiles had slipped off to the river ground below. Its broken, uncurtained windows stared vacantly at nothing. The road swept around the abandoned dwelling in a complete loop. The boys followed it, puzzled.

At the Circleville Theatres

AT THE GRAND NAMES WERE MUD

An uproarious incident of "Divorce Among Friends" the Warner Bros. and Vitaphone comedy which comes to the Grand Theatre, is that in which the eloping husband, and his blonde, their car suffering a punctured tire, stick in the mud, find friend wife and a sheik hidden in the rear seat and are robbed by highwaymen, proving literally that when it rains it pours. The cast includes Irene Delroy, James Hall, Lew Cody, Natalie Moorhead, Edward Martindel and Margaret Seddon. Roy Del Ruth directed.

All lovers of westerns have a treat in store for them at the Grand Theatre where "The Texas Ranger," a Buck Jones Columbia vehicle, is showing. It is a thrill picture if ever there was one.

The plot revolves around a row between homesteaders in the cattle region of Texas and Matt Taylor, a capitalist. The Texas Rangers are called into settle the dispute and more particularly Buck Jones, in the role of a Texas Ranger, is assigned to the case. The action that follows is fast and furious and Buck is given ample opportunity to exploit his feats of daring horsemanship. Carmelita Geraghty supplies the feminine interest. A large supporting cast contributes excellent performances. Ross Lederman directed.

AT THE CLIFTONA

Hedda Hopper, delineator of sophisticated women, makes an "about face" in "A Tailor Made Man," in which she will be seen in support of the frolicsome William Haines at the Cliftona Theatre. For as the nouveau riche dowager, Miss Hopper has a role which goes to the other extreme into believing Haines to be a great financier, whereas in reality he is nothing but a pants presser in the farcial plot. The romantic comedy of business life was directed by Sam Wood, who recently scored with his production of "Paid." Dorothy Jordan, Joseph Cavthorn and Marjorie Rambeau have prominent roles.

One of the most gripping dramatic situations filmed in many years occurs in Henry King's production of "Eyes of the World," the inspiration-United Artists picture now playing at the Cliftona theatre.

The three players enacting this powerful scene are Una Merkel, Nance O'Neil and Hugh Hottel. Miss O'Neil, shot gun in hand, interrupts a desperate struggle between Miss Merkel and Hottel and compels the latter to get down on his knees to pray for forgiveness. She is about to shoot the man

PICKED HIS PRISON
JACKSON, Mich.—"Your Honor, I want to go to Marquette prison because there men are men and not a bunch of kids; I will get along better." So spoke Frank Dalton, 41, convicted felon. The court finding him to be a third offender under the criminal code passed sentence of 20 to 28 years and gave him his wish. Dalton's last offense was forgery. While held in the county jail here he escaped twice, once by blinding several deputy sheriffs with pepper as he dashed out.

SOIL PRESERVED WATCH
CLAIRE, Mich.—Clarence Duffee, Hutton township farmer, lost a gold watch seven years ago while plowing. Recently, in the same field, the iron shoe of his plow returned the timepiece to the surface. With a little oil the watch was discovered to be still in working order.

TRINITY'S OLD "GRAD"
HARTFORD, Conn.—Col. William S. Cogswell, of New York, intends to be present at Trinity College commencement next month. It will be the seventieth anniversary of the colonel's graduation from Trinity, and the fact that he still commutes daily from his home on Long Island to his law office on Nassau-st., Manhattan, leads his friends to expect to see him here. His sole surviving classmate is Rev. Samuel S. Lewis, of Walpole, Mass. The young Cogswell went into the Union August 1865, and came out a lieutenant-colonel. A year later he was admitted to the New York bar.

Who'll Control House In 1931?

By CORYDON H. HADDON
International News Service
Staff Correspondent
COLUMBUS, O.—Will the Republicans or Democrats control the national house of representatives in the next regular session? Democratic leaders throughout the nation today were looking to Ohio voters to decide this question in favor of the Democrats.

Four vacancies, due to death, now exist in the lower branch of Congress. As a result, the line-up of Congressmen for the session opening next December is now stands, Democrats, 214; Repub-

licans, 216; Farmer-Laborite, 1; vacancies, 4.

These vacancies exist in the first Ohio congressional district, which was represented by the late Speaker Nicholas Longworth (R) of Cincinnati; the 20th Ohio district, which the late Congressman Charles A. Mooney (D) of Cleveland served; the eighth Wisconsin congressional district, which was represented by the late Congressman Henry Allen Cooper (R) and the Brooklyn, N. Y., district, which the late Congressman David J. O'Connell (D) of that city served.

Proclamations issued by Governor George White called for special primary elections next August followed by the November election in the first and 20th districts for the purpose of electing successors to Longworth and Mooney.

The districts which Mooney and O'Connell represented are normally Democratic. Cooper was a 'progressive' Republican and represented a normally Republican district. The Cincinnati district, which Longworth represented for many years, also has been normally in the G. O. P. column.

The Democratic leaders are confident that the voters in the districts which Mooney and O'Connell represented will elect Democratic congressmen.

Because of the industrial depression, and other political factors, Democratic leaders are hoping that Democratic congressmen will be chosen to succeed the late Speaker Longworth and Congressman Cooper.

If the Democrats make a com-

plete sweep, the line-up would be: Democrats, 218; Republicans, 210; Farmer-Labor, 1; thus giving the Democrats an unquestioned majority.

In the event, however, that the Wisconsin vacancy is filled by a Republican and the Democrats carry the two Ohio and Brooklyn districts, the Democrats would still be able to control the national house with the aid of Representative Paul Kval, farmer-laborite, of Minnesota.

With the Democrats losing the Wisconsin district, but winning the other three, the line-up would be: Democrats, 217; Republicans, 217; Farmer-labor, 1.

The Democrats are preparing to wage a real battle in Cincinnati

where the local leaders of that party appear confident of success. Part of their confidence is founded upon the fact that the first district, usually strong Republican, gave Longworth the slim majority of 3,500 votes last fall.

Some Democratic leaders concede that the Republicans' best chance, of the four districts, is in the Wisconsin district where the major contest is between the La Follette and the conservative wings of the Republican party.

In view of the fact that the major uncertainty appears to be centered in the Wisconsin district, no opportunity will be overlooked by the Democratic leaders in their efforts to carry the two Ohio congressional districts.

Hollywood On Broadway... Undertones... Overtones

By DAVID P. SENTNER
NEW YORK—Nothing to do for two months but look over the beauty crop in Europe... what a way to see Europe... George DeSylva who used to make words sing with two other guys—Brown and Henderson—just got back from trying to find foreign beauty to import for movie star... girls to left of him... to right of him... one applicant even had wooden leg... best looker in Germany, says George... brought back eight recommendations for decision by Winnie Sheehan, For production chief.

Why go abroad for movie talent when dormitories of American queenlings ready to hitch-hike to Hollywood?

"Because American public seems to find foreign accents fascinating," answered George.

Funny... when talkies first broke magnates afraid of foreign accents... began shipping back broken accents to Europe.

Anyway, DeSylva told me age limit of beauty stars was going up... "Public no longer wants its movie stars so young and innocent looking... a beauty can now be close to thirty—close on either side and still go over big," said DeSylva.

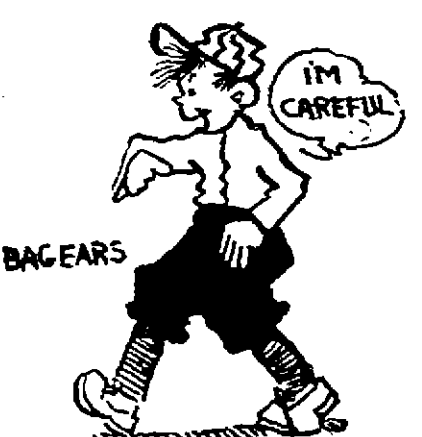

DeSylva believes American public doesn't seem to care about acting ability as much as for beauty and personality... "And personality is more important than beauty"... DeSylva is to make debut as director in picture for Janet Gaynor... will write story besides and lyrics for song in film.

Reri, lovely dancing girl from South Sea Isles, who got all opera glasses in film "Tabu," is rehearsing for Ziegfeld "Follies"... All-ready one first class millionaire is giving her rush... real name is Anna Chevalier... but they call her Reri and it turned out Reri... her mother is a native, father French gendarme... she is billed as 16 but really 19... makes no difference she is good to look upon at any age... just out of convent... somebody who knows their Bara Bora in south Pacific told me she isn't best dancer on island where all girls dance but is prettiest... Reri went up in plane first few days in New York... she always smiling... but sad look in eyes... maybe homesick... just for your information she doesn't walk around in hula costume.

Al Jolson, brunette-face comedian, negotiating for motion picture rights for "The Green Pastures," Pulitzer prize play... if he gets it may even play central role of "the Lawd"... 350 youngsters mobbed Brooklyn Vitaphone studio where tests being made for one-reel Booth Tarkington juvenile stories... Questionnaire of audiences by Roxy Theater drew emphatic pleas to remove jazz, masters of ceremonies, male dancers and acrobatic dancers... voted five to one for classical music.

Wonder if Sinclair Lewis will kick at filming of "Arrowsmith" like his old pal Theodore Dreiser did after filming of "American Tragedy"?

Consider your Adam's Apple!!* Don't Rasp Your Throat With Harsh Irritants

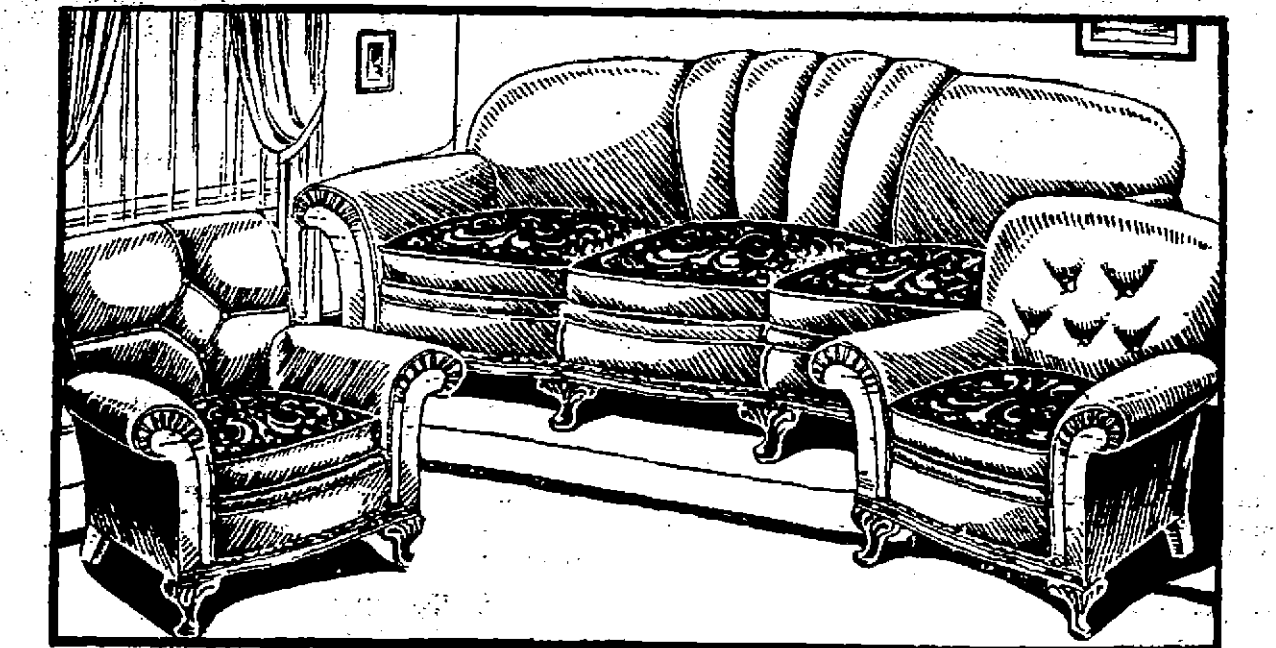

"Reach for a LUCKY instead"

Everyone has an Adam's Apple—every man—every woman has one. Touch your Adam's Apple with your finger. You are actually touching your larynx—this is your voice box—contains your vocal chords. When you consider your Adam's Apple, you are considering your throat—your vocal chords.

"TOASTING" expels certain harsh irritants present in all raw tobacco. These expelled irritants are not present in your LUCKY STRIKE—the modern cigarette. We sell these expelled irritants to manufacturers of chemical compounds. Everyone knows that sunshine mellows—that's why the "TOASTING" Process includes the use of Ultra Violet Rays. LUCKY STRIKE—made of the finest tobaccos—the Cream of the Crop—THEN—"IT'S TOASTED"—an extra, secret and exclusive heating process. It is this process that expels these harsh irritants. No wonder 20,679 American physicians have stated LUCKIES to be less irritating. No wonder LUCKIES are always kind to your throat. And so we say "Consider your Adam's Apple." Be careful in your choice of cigarettes.

OILS PLAY GOOD BALL TO WIN CREWS READY FROM GROCERS; HOLD TOP RUNG FOR REGATTA

Overcome Five Run Lead; Break When Barnes Drops Ball After Falling Gives Oil-men Chance To Tie Ball Game; Purcell Effective After First Two Frames.

Circleville Oils, gradually pecking away at a five run lead the Independent Grocers took in the first two innings, came from behind to win one of the most interesting recreation ball games played this year at Utilities field Wednesday evening. The final score was 6-5.

The Grocers touched Purcell for one run in the first frame, then with the paths loaded in the second Eddie Watson cracked a line drive to left center. The ball was a good hit and when it skidded past Orval Smith Watson made the circuit, giving his team a five run advantage. But from that time on things were too bad for the Grocers as far as offense was concerned.

Purcell settled down, and with good support, had the Grocery-boys eating from his hand.

The Oils scored their first run in the third frame and counted another in the sixth. In the seventh, the game-deciding break occurred. With two on and two out Purcell hit a hard drive to right-center field. Joe Barnes started after the ball and after catching it, after a nice run, slipped and fell dropping the ball. Two runs scored and Purcell pulled up at third base with the tying run. Steele's drive over the third sack scored the pitcher and the game was tied. Howard White beat out a hit to start the eighth and was pushed around by his mates to score the winning run.

To say the game was exciting would be putting it mildly. Good catches features the ball game at various times, with Joe Barnes pulling several down that apparently were headed for parts unknown. Charlie Scott played the best game he has when in right field for the winners. By virtue of their victory the Oils remain in first place.

HIGH TRACK STARS MEET

Stagg Field, Chicago Is Scene of 27th Annual Interscholastic Meet.

CHICAGO, June 11.—High school track stars from 24 states began arriving today for the twenty-seventh annual interscholastic track meet at Stagg field tomorrow and Saturday.

Illinois, of course, leads in the number of entries, but 520 are entered from 144 schools nearly all of these lads placed in their respective state meets. Twelve of the Illinois champions out of 13 are entered.

Oak Park, twice Illinois, title holder in the past two years, was one of the favorites. Scott high, Toledo, entered a squad of 18 men, and Roosevelt high of Dayton, 17. Four of last year's champions are returning to defend their national high school crowns and 17 of these who placed are back for another try at the records.

The four champs are Randall Herman, Oak Park, 100 yard dash; Tim Quinn, Laundinton, Mich., record holder in the half-mile at 1:57.2; Slat's Hardin, Greenwood, Miss., winner of the second half mile race; and Elwyn Dees, Lorraine, Kan., who set a new record of 58 feet with the 12-pound shot.

Indiana high schools were ruled out so Froebel High of Gary, last year's winner, will not defend its title. As usual, Coach Stagg is charging no admission to the meet.

IN FINAL TESTS

NEW YORK, June 11.—Ruth Nichols today planned to make final plans for her solo trans-Atlantic flight.

She hoped to take off from here before the end of the week for Harbor Grace, N. F., where she will start her hop to Paris.

TEE TONIC for SPRING GOLFERS GENE SARAZEN

In hitting irons, the arc of the club is shortened decidedly because of the desire for accuracy. Therefore the ball is played back of the left heel. The shorter the shot required, the further back the ball is played and the more downward the stroke.

The full iron is played similar to the wooden club stroke, bearing in mind the fact that the wrists are slightly firmer and the blow is slightly downward.

The short mashie niblick stroke is decidedly downward and the ball is played at a point of equilibrium between the feet.

Some players go to extremes and play their irons off the right foot. This makes for an extreme downward blow and is dangerous because it is likely to produce punching. It also mars the smoothness of the stroke. It is apt to cause chopping.

American Rowing Classic To Be Staged at Poughkeepsie On June 10.

POUGHKEEPSIE, N. Y., June 11.—All of the nine crews which will meet the supreme test of stamina and brawn in the blue ribbon classic of American rowing here June 16 were ready to take the water today in practice spins.

Coach Al Ulbrickson and his Washington sweepers arrived here last night and will be out on the Hudson today for their first row. The far-westerners, conquerors of California, were the last to arrive at the scene of the regatta, having stopped off en route to Poughkeepsie to administer a beating to Marquette on the Ohio river.

Washington was to be keenly watched in its first workout today. The Huskies are one of the hot favorites and the fact that they just nosed out Marquette was not considered by rival coaches, who claimed the far-westerners rowed under wraps against the Ohio shell.

Five of the varsity crews came whacking down the four-mile course against time last evening, a wind passing away in the late afternoon and giving fairly decent weather.

Coach Bill Hines, who arrived with his M.I.T. Crews late Tuesday got on the river for the first time last night and sent his engineers over with the rest of the pack. Hines was the only coach to announce the official time and he stated that his men covered the course in 22 minutes.

Unofficial clockers, perched on the banks of the river and near the finish line caught Syracuse in twenty minutes 58 and 2-5 seconds. Columbia covered the distance in 20 minutes 31 and 2-5, while Cornell, rowing with a slight tide running against them, rowed the four miles in approximately 20 minutes and 42 seconds.

Wisconsin, the last eight to go over and hitting the beat up to 34 at times, traveled the distance in 21 minutes, 02 seconds.

Pennsylvania, Navy and California battled rough water again yesterday in a double workout but Coaches Callow, Glendon and Ebright of these crews did not shoot their varisities over the course.

Penn rowed twelve miles in the evening before running to camp, while the Golden Bears and the Midshipmen got in hard rows for short distances.

METHODIST TEAM BEATS EVAN. NINE

The Methodist Church recreation ball team annexed a victory from the Evangelical team Wednesday evening by winning 17 to 5.

This is the first game played in this church league between these two teams, and they ask that other church teams enter the league. Anyone wishing to enter should get in touch with Herbert Hammell or Russell Lape.

Lineups for last night's game included:
Methodist 17. Laughlin, c; Heggie, p; Beck, p; Lynn, lb; Dauro, 2b; Steele, ss; McClure, 3b; Phebus, cf; Dumm, cf; McClure, lf.

Evangelical—5. Lape, c; Liest, p; Davis, p; Frenk, lb; Lutz, 2b; Davis, ss; Carothers, 3b; Moore, lf; Stout, cf; Porter, rf.

FLAG TOURNEY TO BE SUNDAY

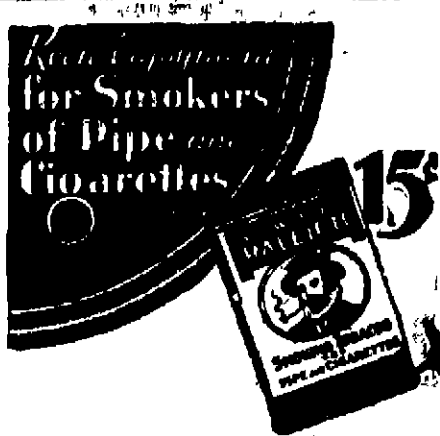

Wind, Bad Weather Cause Postponement; Women to Play at Chili.

Rain and high winds caused the postponement of the Flag Tournament scheduled at the Pickaway Country Club last Sunday and it will be held this Sunday, according to Frank Casey, pro at the Club. With ideal playing weather this week golfers have been busy getting ready for this affair. A number of merchandise prizes will be offered to winners in Sunday play and a large number of entries are expected.

On Wednesday, June 17th the Chillicothe Country Club will hold a Ladies Tournament at the Chillicothe Course at which local players are invited. The Tournament starts at 10 a. m. and a luncheon will be held at 12 o'clock. Every lady member is invited to enter this tournament. GENUINE

MILLER RELIM TIRES

WHY take the chance of skidding... or a blowout... which may result in an accident or injury? Why take the chance of flats, delays at inconvenient moments... when you can buy brand new Miller Tires at these prices?

And new Millers all around will add immeasurable to the beauty of your car. They take away that "down at the heel" look.

It's cheaper in the long run to change your tires when the tread has been worn off. And it's far cheaper when you consider tire prices are the lowest in history. And don't forget Millers are quality tires, backed by years of experience in the manufacture of good tires.

Why not come around today? We will look over your tires and give you expert advice on their actual condition. If your old rubber is safe we'll tell you so. If it is not safe you'll never find a better time to "shoe" your car with genuine Millers at these prices.

ABANDON HOPE FOR ENTOMBED
18 Men Are Entombed in Yellow Sea in Sunken British Submarine.
SHANGHAI, June 11.—Hope of rescuing the eighteen men entombed in the sunken submarine Poseidon 120 feet under water in the Yellow sea was virtually abandoned today when rescue ships failed, despite frantic efforts to establish contact with the wreck.
Admiralty divers who descended to the submarine were unable to attach rescue apparatus to it and reported that they hear no response to their signals to the prisoners. Their repeated rappings of morse code letters on the side of the submarine brought no response.
A message from the aircraft carrier Hermes at the scene of the disaster denied reports that diver had heard signals from a compartment containing eight of the men saying that they were still alive.
The American submarine salvage vessel Pigeon, equipped with special rescue apparatus, hastened from Tsingtao to help the British cruisers Berwick and Cumberland, the destroyer Storm Cloud, the sloop Marathon and the tug St. Brock at the scene of the accident.
The only hope of the entombed

men lay in the use of the Davis third lung apparatus with which British submarines were recently equipped. This is a combination life belt and oxygen mask. If the mask is attached to the big submarine oxygen tanks the user may succeed in living a long time.
Forty-five minutes after the Poseidon was rammed by the Yuta, four men came up in these newly-invented life belts. The submarine sank within 10 minutes after the accident and thirty-one members of the crew saved their lives by jumping overboard. These were picked up by the Yuta.
HOSPITAL NEWS

Mrs. Josie Cherry, of Williamsport, who has been in the hospital convalescing from an appendicitis operation was released Thursday.
YOUTH CONFESSES
CLEVELAND, June 11.—Leon Wazlewski, 17, today confessed to police here that he was the "phantom sniper" who shot and killed Miss Louis Gaudy, 17, Johnstown, Pa., girl while she was walking along a street in Cleveland last May 4. Police Chief George J. Matowitz reported.

ROCKEFELLER KIN LOST, FOUND TODAY
LYNNFIELD, Mass., June 11.—Miss Ruth Aldrich, 19-year-old Rhode Island society girl, who "vanished" for a night, was found today by her father, Edward B. Aldrich, at the home of her preparatory school classmate, Miss Mary Harnden.
Ruth returned with her father to Marlboro, N. H., after explaining that she had become homesick and decided to visit her school friend.
Miss Aldrich is a granddaughter of the late United States Senator Nelson W. Aldrich and related to John D. Rockefeller, Jr.
THRILL MURDERER 27 YEARS OF AGE

TRICKS of MAGIC EXPLAINED by WILLI Lindhorst
HOW TO PICK UP FIVE BRICKS WITH ONE HAND
BALANCE THE BRICKS ON TOP OF EACH OTHER LIKE THIS AND REACH YOUR ARM THROUGH OPENING IN CENTER GRASPING THE BOTTOM BRICK
G... five bricks and ask any person in your audience to lift the bricks with one hand. If nobody succeeds, you do the trick in this manner: Stand one brick lengthwise with the narrow side up, and above this place two more, standing them crosswise, one on each end of the lower brick. Place the remaining two on top, crosswise to the middle bricks and one near each end. You then have an opening in the center large enough through which to reach your hand and grasp the bottom brick, thereby making it possible to lift all five with one hand. This can be truly called a Samson trick.
